So tender yet courageous is this fierce family memoir that it makes mass incarceration nothing less than a new American tragedy. In a shattering work that shifts between a woman ’ s private anguish over the loss of her beloved baby cousin and a scholar ’ s fierce critique of the American prison system, Danielle Allen seeks answers to what, for many years, felt unanswerable. Why? Why did her cousin, a precocious young man who dreamed of being a firefighter and a writer, end up dead? Why did he languish in prison? And why, at the age of fifteen, was he in an alley in South Central Los Angeles, holding a gun while trying to steal someone ’ s car? Cuz means both “ cousin ” and “ because. ” In this searing memoir, Allen unfurls a "new American story" about a world tragically transformed by the sudden availability of narcotics and the rise of street gangs—a collision, followed by a reactionary War on Drugs, that would devastate not only South Central L.A. but virtually every urban center in the nation. At thirteen, sensitive, talkative Michael Allen was suddenly tossed into this cauldron, a violent world where he would be tried at fifteen as an adult for an attempted carjacking, and where he would be sent, along with an entire generation, cascading into the spiral of the Los Angeles prison system. Throughout her cousin Michael ’ s eleven years in prison, Danielle Allen—who became a dean at the University of Chicago at the age of thirty-two—remained psychically bonded to her self-appointed charge, visiting Michael in prison and corresponding with him regularly. When she finally welcomed her baby cousin home, she adopted the role of "cousin on duty," devotedly supporting Michael ’ s fresh start while juggling the demands of her own academic career. As Cuz heartbreakingly reveals, even Allen ’ s devotion, as unwavering as it was, could not save Michael from the brutal realities encountered by newly released young men navigating the streets of South Central. The corrosive entanglements of gang warfare, combined with a star-crossed love for a gorgeous woman driving a gold Mercedes, would ultimately be Michael ’ s undoing. In this Ellisonian story of a young African American man ’ s coming-of-age in late twentieth-century America, and of the family who will always love Michael, we learn how we lost an entire generation.

A variety of animals teach a boy to appreciate individual differences.

Aged 15 and living in LA, Michael Allen was arrested for a botched carjacking. He was tried as an adult and sentenced to thirteen years behind bars. After growing up in prison Michael was then released aged 26, only to be murdered three years later. In this deeply personal yet clear-eyed memoir, Danielle Allen reconstructs her cousin?s life to try and understand how this tragedy came to pass. We get to know Michael himself through the eyes of a devoted relative, moving from his first steps to his first love through to the day of his arrest, his coming of age in prison, and his attempts to make up for lost time after his release. We learn what it?s like to grow up in a city carved up by invisible gang borders; and we learn how a generation has been lost. With breathtaking honesty and insight, Cuzcircles around its subject, exposing it from all angles to reveal the shocking reality of a broken system. The result is a devastatingly powerful yet reasoned tribute to a life lost too soon.

No matter how hard you try. No matter how badly you fight. No matter how badly you abuse one another. And no matter how earnestly you try to stay away. You meet them.. After a long time. Or after a long break. Or perhaps, after a really bad phase. You still feel like kissing them. You die to surrender yourself in their arms. The title wasn't just a statement.. Love really really is Gravity."
