This text explores common obstacles and why certain performance appraisal methods often result in failures. Using a strategic, evidence-based approach, the authors outline best practices for avoiding common pitfalls and helping organizations achieve their maximum potential. Cases, exercise, and spotlight boxes on timely issues like cyberbullying in the workplace and appraising team performance provides readers with opportunities to hone their critical thinking and decision making skills.

End every manager's nightmare: conducting performance appraisals.

"Pay for performance" has become a buzzword for the 1990s, as U.S. organizations seek ways to boost employee productivity. The new emphasis on performance appraisal and merit pay calls for a thorough examination of their effectiveness. Pay for Performance is the best resource to date on the issues of whether these concepts work and how they can be applied most effectively in the workplace. This important book looks at performance appraisal and pay practices in the private sector and describes whether--and how--private industry experience is relevant to federal pay reform. It focuses on the needs of the federal government, exploring how the federal pay system evolved; available evidence on federal employee attitudes toward their work, their pay, and their reputation with the public; and the complicating and pervasive factor of politics.

Performance appraisal is a key tool for meeting the managerial needs of the modern organization. Daley examines the entire process of designing a performance appraisal system from determining its organizational purpose to constructing an objective appraisal instrument for measuring employee performance. Emphasis is also placed on the role of employee feedback and appraisal training. The cognitive behavior that shapes and influences the rating process is detailed. The book integrates the literature and practices detailed in business management, psychology, and sociology with that focusing on the public sector. After an overview of performance appraisal research and the effect of public-private differences, Daley examines the reasons for performance appraisal and the basic mechanics--why?, what?, when?, who?--of establishing an appraisal process. Special emphasis is placed on the role of performance appraisal in the organization. He looks at the array of appraisal instruments that exists concentrating on the development of objective Behaviorally Anchored Rating Scales and Management by Objectives approaches. The role of employee feedback and the performance appraisal interview for delivering it are detailed. Daley focuses on the problems that plague raters. Organizational and employee misunderstandings along with traditional rater error problems are diagnosed. The importance of programs for training the rater are presented. An ideal resource for managers engaged in performance appraisal, this book can also serve as a supplemental reading for courses in management and human resources/personnel.

This book fulfills the practitioner's need for a research-based guide to the best performance appraisal practices currently in use. Addressing an issue vital to all organizations, the book introduces readers to thought and theories on the cutting edge of their profession. Plus, it provides nuts-and-bolts guidance to a broad spectrum of timely issues such as legality, fairness, team settings, and incentive programs.

Performance Appraisal has been considered as the most significant and indispensable tool for any organization, for the information it provides is highly useful in making decisions regarding various personnel aspects such as promotion and merit increases. Performance measures also link information gathering and decision making processes which provide a basis for judging the effectiveness of personnel sub-divisions such as recruiting, selection, training and compensation. This research concentrates on examining the effect of the performance appraisal on an individual as well as on the organizations. The data used for the study is primary data collected through the help of questionnaire filled by the samples. The data was evaluated with the help of statistical tools. The findings of the research show that there is a noticeable effect of the performance appraisal on the organization as well as on the Individual.
