treating fractures and dislocations, and otherwise urgent and emergent cases. Because of sheer volume of COVID-19 cases, many facilities have severely minimized their surgical case volume. This coupled with supply issues, and unproven treatment and protection techniques has resulted in confusion in many situations.

Journal of Orthopaedic Trauma

The dislocation is described by the AO/OTA segments proximal and distal to the joint. For instance an elbow dislocation is called 13-21, and a dislocation of the syndesmotic joint in the ankle is called 43-43. Fractures with dislocation of the joint are classified both as fractures and
