A hugely engaging collection of pieces by Karel Capek, one of the great European writers of the last century.

Playful and provocative, irreverent and inspiring, Capek is perhaps the best-loved Czech writer of all time. Novelist and playwright, famed for inventing the word 'robot' in his play RUR, Capek was a vital part of the burgeoning artistic scene of Czechoslovakia of the 1920s and 30s. But it is in his journalism - his brief, sparky and delightful columns - that Capek can be found at his most succinct, direct and appealing. This selection of Capek's writing, translated into English for the first time, contains his essential ideas. The pieces are animated by his passion for the ordinary and the everyday - from laundry to toothache, from cats to cleaning windows - his love of language, his lyrical observations of the world and above all his humanism, his belief in people. His letters to his wife Olga, also published here, are extraordinarily moving and beautifully distinct from his other writings. Uplifting, enjoyable and endlessly wise, Believe in People is a collection to treasure.

A surprising take on how you can help tackle the really big problems in society – from one of America ’ s most successful entrepreneurs. People are looking for a better way. Towering barriers are holding millions of people back, and the institutions that should help everyone rise are not doing the job. Crumbling communities. One-size fits all education. Businesses that rig the economy. Public policy that stifles opportunity and emboldens the extremes. As a result, this country is quickly heading toward a two-tiered society. Today ’ s challenges call for nothing short of a paradigm shift – away from a top-down approach that sees people as problems to be managed, toward bottom-up solutions that empower everyone to realize their potential and foster a more inclusive society. Such a shift starts by asking: What would it mean to truly believe in people? Businessman and philanthropist Charles Koch has devoted his life to answering that question. Learn what he ’ s discovered during his 60-year career to help you apply the principles of empowerment in your life, in your business, and in society. By learning from the social movements and applying the principles that have enabled social progress throughout history, Koch has achieved more than he dreamed possible – building one of the world ’ s most successful companies and founding Stand Together, one of America ’ s most innovative philanthropic communities. Stand Together CEO Brian Hooks and Koch show how the only way to solve the really big problems – from poverty and addiction to harmful business practices and destructive public policy – is for each and every one of us to find and take action in our unique role as part of the solution. Full of compelling examples of what works – including several first-person accounts from individuals whose lives have been transformed – Koch and Hooks ’ refreshing approach promotes partnership instead of partisanship and speaks to people from different perspectives and all walks of life. They show that no injustice is too tough to overcome if you share a deep belief in people, are willing to unite with anyone to do right, and work to empower others from the bottom up.

Shares the author’s insights into the religious, political, social, and economic forces that compel people into fanaticism or opposing belief systems, discussing psychological aspects of the human need to belong and believe in a cause.

Draws on real-life stories and figures, including Martin Luther King, Jr. and Steve Jobs, to examine the qualities a good leader requires in order to inspire and motivate people.

One of the greatest spiritual teachers of the twentieth century addresses the conflicts that arise between people with opposing views and the dangers of losing your individual identity in your desire to belong to a group with shared values. In Belief, Doubt, and Fanaticism: Is It Essential to Have Something to Believe In?, Osho brings his unique and often surprising perspective to the religious, political, social and economic forces that drive people into opposing camps, fanatical groups, and belief systems that depend on seeing every " other " as the " enemy. " As always, the focus is first and foremost on the individual psyche and consciousness, to identify the root causes and hidden demons of our human need to belong and have something to " believe in. " Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the " 1000 Makers of the 20th Century " and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

The greatest challenge for the twenty-first-century church is the lack of catechesis—training in biblical and doctrinal knowledge. As J. I. Packer states, "where wise catechesis has flourished the church has flourished, and where it has been neglected the church has floundered." It is increasingly apparent that we are raising up generations of Christians who often have little idea what they should believe and why they should believe it. Grounded in the Faith takes up that challenge with twenty-four low-prep, in-depth sessions that will ground believers in the basics of their faith. This new innovative guide is a transformational disciple-making tool that leaders can immediately use to activate discipleship in the church. It presents individuals, small groups, and Sunday school classes with a cohesive understanding of historic, sound, biblical theology that serves as a catalyst for deeper intimacy with Christ. It is a user-friendly guide to growth in the Christian faith that covers important topics such as justification, overcoming temptation, sanctification, evidence for the inspiration of the Bible, the value of prayer, the guidance of God, the Trinity, the uniqueness of Christ, and the attributes of God.

Americans have built an empire on the idea of " race, " a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? Between the World and Me is Ta-Nehisi Coates ’ s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children ’ s lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, Between the World and Me clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.
