The Work of a Breaker Boy - The Breaker Boys

A breaker boy was a coal-mining worker in the United States and United Kingdom [citation needed] whose job was to separate impurities from coal by hand in a coal breaker. Although breaker boys were primarily children, elderly coal miners who could no longer work in the mines because of age, disease, or accident were also sometimes employed as breaker boys.

"Breaker-boys" like these children worked in the coal mines of Pennsylvania, where they separated coal from slate by hand. They usually worked ten hours per day, six days a week. Asthma and black lung were common among breaker-boys, and many lost limbs after being caught in machinery, or were crushed to death by mounds of coal or under the conveyor belts they worked near.

Breaker Boys: How a Photograph Helped End Child Labor ...

In 1909 Hine published *Child Labor in the Carolinas and Day Laborers Before Their Time*, the first of his many photo stories documenting child labour. These photo stories included such pictures as *Breaker Boys Inside the Coal Breaker* and *Little Spinner in Carolina Cotton Mill*, which showed children as young as eight years old working long hours in dangerous conditions.
