CFI catalogs can vary in size, ranging from one item to thousands of items (up to 10 MB of data). This type of catalog is the most common format used and requires very limited technical capability.

Access Free Catalog

Suppliers create the catalogs and submit them to Cummins via the Ariba Network.

Supplier Catalogs -
Indirect

Pack Size is the number of units per “case”. This is typically how you purchase your

Access Free Catalog

product from your Supplier. E.g., 1 case of beer has 24 bottles. So the pack size would contain 24 bottles when 1 case is purchased. Item Size is the measure in weight, volume, or "each" of a product. E.g., 1 bottle of beer is 12 ounces.
