The title is the result of a long thinking of Veterinary Physiology, from a learner ' s point of view. In authors viewpoint ' Physiology is the language of medicine and health ' . Therefore, he opines that, it should be taught and learnt to its details, but in a way, to release abstinence in use of books due to inevitable descriptiveness. Keeping this in mind, this book is planned to impart understanding of Veterinary Physiology in a different synoptic manner, in

order to make its study crisp and effective. It will not only help students understand the various physiological processes, but also will help them study it to the point of guidance on every walk of life as a clinician, as well as an academician, in future. Furthermore, the contents being planned as per the requirement of syllabus prescribed by the esteemed Veterinary Council of India, hopefully it will be useful in preparation of various examinations, too. However, it will be helpful to develop and retain interest of any learner of Physiology over the globe. It tries to provide conceptual clarifications and to solve many mysteries of interesting complications in physiological processes, making it an interesting science, to study, to know and to widely apply in various references, as well.
