This text offers a modern approach to hydrotherapy—the use of water, ice, steam, and hot and cold temperatures to improve or maintain health—as performed by massage therapists. Authored by an experienced massage therapist, this book presents clear, uncomplicated explanations of how hydrotherapy affects the body, and then demonstrates a wide variety of hydrotherapy treatments. The book suggests how massage therapists may use hydrotherapy treatments before and during massage sessions, or give these treatments to clients to do between sessions for faster and better results. The author presents real-life examples and case studies obtained through interviews with massage therapists, athletic trainers, physical therapists, naturopathic doctors, aquatic therapists, and medical doctors treating patients in a medical hydrotherapy setting.

A book that students find interesting and instructors consider educationally valuable, this Fifth Edition of Contemporary Criminal Law combines traditional concepts with thought-provoking cases and engaging learning tools. Taking a casebook approach, the text covers both foundational and emerging legal topics such as terrorism, gangs, cybercrime, and hate crimes, illustrated by real-life examples that students connect with. Clear explanations of criminal law and defenses are complemented by provocative, well-edited cases followed by discussion questions to stimulate critical thinking and in-class discussion. The book provides a contemporary perspective on criminal law that encourages students to actively read and analyze the text. The Fifth Edition is enhanced throughout by new cases that offer the most up-to-date coverage of evolving legal opinions and developments in criminal law. New to This Edition New cases illuminate important concepts, including decisions on criminal acts, criminal intent, parties, corporate crime, kidnapping, identity theft, computer crime, prostitution, terrorism, and more. One or more new You Decide sections in most chapters clarify concepts to illustrate the complexity of legal analysis and enhance the interactive character of the text. Additional hypothetical problems are available on the companion site. New Crime in the News features look at recent events such as the criminal trial of Dylann Roof, the dark web, and the leaking of confidential government documents to help students apply important concepts to real-world scenarios. New and expanded discussions of critical topics cover the Second Amendment and gun control, the Trump administration's stance on marijuana, sentencing guidelines, and criminal defenses.

Modern Persian, Elementary Level is an innovative Persian language textbook. It is intended for university-level learners and features material for two consecutive semesters of elementary Persian. The textbook implements the most recent trends in language instruction including the basic tenets of flipped learning and communicative language teaching methodology with a student-centric approach to language instruction. Strengthened by its contemporary real-world topics; high-frequency structures and vocabulary; thematic presentation of material; a plethora of engaging speaking activities in each chapter; designated listening, reading and writing sections; and integration of cultural material, this textbook is a straightforward and culturally engaging way to acquire functional proficiency in spoken and written Persian. Complete with a companion website with over 200 audio and video presentations, an answer key, a searchable audio dictionary and a special appendix for instructors that features classroom activity materials for the entire year, this textbook is an innovative and modern language-learning resource. The textbook also comes in an E-book format to make language learning accessible on the go, wherever you are. The companion website for the book can be accessed here:

Critical care medicine is a dynamic and exciting arena where complex pathophysiologic states require extensive knowledge and up-to-date clinical information. An extensive know- edge of basic pathophysiology, as well as awareness of the appropriate diagnostic tests and treatments that are used to optimize care in the critically ill is essential. Since our first edition 7 years ago, new information crucial to the care and understanding of the critically ill patient has rapidly accumulated. Because this knowledge base crosses many different disciplines, a comprehensive multidisciplinary approach presenting the information is essential, similar to the multidisciplinary approach that is used to care for the critically ill patient. We have strived to provide this content in an easily digestible format that uses a variety of teaching tools to facilitate understanding of the presented concepts and to enhance information retention. To meet the demand to provide comprehensive and diverse education in order to understand the pathogenesis and optimum care of a variety of critical illnesses, we have substantially revised the prior topics in the first edition with updated information. We have also markedly expanded the number of topics covered to include acute lung injury and the acute respiratory distress syndrome, an expanded discussion of the physiology and operation of mechanical ventilation, obstetrical care in the ICU, neurosurgical emergencies, acute coronary syndromes, cardiac arrhythmias, role of whole body rehabilitation in the ICU, ethical conduct of human research in the ICU, and nursing care of the ICU patient.
