The focus shifts from early component testing to late acceptance testing. It is important that everybody understands this.

There are generally four recognized levels of testing: unit/component testing, integration testing, system

testing, and
acceptance testing.
Tests are frequently
grouped by where
they are added in the
software
development
process, or by the
level of specificity of
the test.

Levels of Testing in

software testing :

Unit Testing: checks if software components are fulfilling

functionalities or not.

Integration Testing: checks the data flow from one module to other modules.

System Testing:
