...
The vehicle routing problem with pickups, deliveries and time windows (PDPTW) is an important member in the class of vehicle routing problems. In this paper a general heuristic to construct an initial feasible solution is proposed

methods that combine

Acces PDF

Combining

Heuristics and exact methods to solve optimisation problems have been proposed.

These methods, also known as

matheuristics , have been shown to perform better than both heuristic and mathematical programming methods when they are applied

Acces PDF

Combining

separately. The idea

of combining the

power of

mathematical

programming with

flexibility of heuristics

has gained attention

within researchers'

community.
