Pilot's Training Guide - Garmin
Description This is a mod for MSFS2020 that aims to improve the in-game G3000. The goal is to bring functionality closer to the real-life G3000, with a focus on both features and layout/UI. Most of development and testing was done with the TBM 930, and the TBM 930 version of the G3000 pilot's guide was used as the primary reference.
