While the history of European competition motorcycles has been largely dominated by Italian, British, and German marques, other builders around the continent have also played significant roles from the turn of the century to present. Arranged by nation, this book examines more than two dozen important marques, including Bultaco, CZ, Elf, Husqvarna, KTM, Ossa, Peugeot, and many others. A wealth of rare photography, including a special color section, includes candid shots of the top personalities and the bikes both at rest and at speed.

"Designed to aid the non-professional motorcycle collector in sorting through the pros and cons of buying and restoring a particular Honda motorcycle"--Cover p. [4].

Break into that barn - you know you want to - there might be a vintage Harley inside. If you won't break in, Tom Cotter will; amazing motorcycles await. Driving down a country road, a flash of chrome catches your eye as you pass an old farmstead. Next time you roll by, you slow down and focus on a shed behind the house. Could that be? Good lord, it is! Hard on the brakes, quick reverse, and pull in the drive. Yep, it's a vintage Triumph Bonneville peering forlornly from beneath a tattered cover. You've just begun the journey that fuels the dreams of every motorcycle collector: the long-forgotten machine, rediscovered. The Harley in the Barn offers forty-plus tales of lost Nortons, hidden Hondas, dormant Indians, and busted BSAs, all squirreled away from prying eyes but found by lucky collectors just like you. Author Tom Cotter is not only a barn-find master, he's also master of discovering the collectors with the best stories and the most outlandish finds. In The Harley in the Barn, all those great stories are told. If you can't pass a padlocked garage without wondering if there's a great old bike stashed inside, this is your book. Hell, this is your life.

It's every motorcyclist's dream. A friend or acquaintance says, "You know, there's an old bike that's been sitting in this garage for years." The hunt is on. And rather than the usual worthless Hondazukimaha pile of hopeless oxidation, at the back of that barn you find a genuine classic, the motorcycle collector's dream. The Vincent in the Barn tells forty such stories--tales of motorcycle hunting dreams come true. From Ducatis in basements to Vincents abandoned in sheds, Harleys in barns to Brit bikes moldering behind urban garages, these are the stories that fuel every motorcyclist's fantasies. The only difference? They're true. See Tom Cotter, author of Motorbooks "In the Barn" series, interviewed by Jay Leno on JayLenosGarage.com: <http://www.jaylenosgarage.com/video/jays-book-club-the-hemi-in-the-barn/1237422/>
