The world may be more driven by murderous violence than ever before, yet Nobel Laureate Amartya Sen argues in this sweeping philosophical work that its brutalities are driven as much by confusion as by inescapable hatred. Sen argues in his new book that conflict and violence are sustained today, no less than the past, but by the illusion of a unique identity. Indeed, the world is increasingly taken to be divided between religions (or 'cultures' or 'civilizations'), ignoring the relevance of other ways in which people see themselves through class, gender, profession, language, literature, science, music, morals or politics, and denying the real possibilities of reasoned choices. In *Identity and Violence*, he overturns such stereotypes as the 'the monolithic Middle East' or 'the Western Mind'. Through his penetrating investigation of such subjects as multiculturalism, fundamentalism, terrorism and globalization, he brings out the need for a clear-headed understanding of human freedom and a constructive public voice in Global civil society. The world, Sen shows, can be made to move towards peace as firmly as it has recently spiralled towards war.

“One of the few world intellectuals on whom we may rely to make sense out of our existential confusion.” Nadine Gordimer In this sweeping philosophical work, Amartya Sen proposes that the murderous violence that has riven our society is driven as much by confusion as by inescapable hatred. Challenging the reductionist division of people by race, religion, and class, Sen presents an inspiring vision of a world that can be made to move toward peace as firmly as it has spiraled in recent years toward brutality and war.

The world may be more riven by murderous violence than ever before, yet Nobel Laureate Amartya Sen argues in this sweeping philosophical work that its brutalities are driven as much by confusion as by inescapable hatred. Sen argues in his new book that conflict and violence are sustained today, no less than the past, by the illusion of a unique identity. Indeed, the world is increasingly taken to be divided between religions (or 'cultures' or 'civilizations'), ignoring the relevance of other ways in which people see themselves through class, gender, profession, language, literature, science, music, morals or politics, and denying the real possibilities of reasoned choices. In *Identity and Violence* he overturns such stereotypes as the 'the monolithic Middle East' or 'the Western Mind'. Through his penetrating investigation of such subjects as multiculturalism, fundamentalism, terrorism and globalization, he brings out the need for a clear-headed understanding of human freedom and a constructive public voice in Global civil society. The world, Sen shows, can be made to move towards peace as firmly as it has recently spiralled towards war.

An esteemed theologian examines how American identity and America's presence in the world are shaped by war.

The noted economist and philosopher Amartya Sen argues that the dictum “all people are created equal” serves largely to deflect attention from the fact that we differ in age, gender, talents, and physical abilities as well as in material advantages and social background. He argues for concentrating on higher and more basic values: individual capabilities and freedom to achieve objectives. By concentrating on the equity and efficiency of social arrangements in promoting freedoms and capabilities of individuals, Sen adds an important new angle to arguments about such vital issues as gender inequalities, welfare policies, affirmative action, and public provision of health care and education.

You may be looking at the back of this book, watching as someone else is reading it—a book entitled: *Love: Expressed*. And you're thinking, “They must have issues.” So to help them out for a moment: This isn't another one of those “self-help” manuals. This isn't a book about romance and sex, or feelings and cuddles. This isn't a guidebook offering relationship advice, giving tips on how to find “love” and “look after” it. In those senses, this isn't even a book about love. It's a book about life—every part of it. About how it should be lived, how it should be explored, how it should be expressed. This is a book about meaning, about life's trajectories. It's about God. It's about you. It's about them. In that sense, this is all about love. But if I could capture here what I mean by “love” in that sense, I wouldn't have needed to write a book. “Tristan Sherwin has written a smart and beautiful book showing us that Jesus Christ is the love of God expressed as a human life. This is the life we are called to imitate; this life of love is what we are made for.” —Brian Zahnd; Author of *A Farewell To Mars* “Refreshing, authentic, inspiring, and yet practical” —Tristan is a breath of fresh air.” —Jeff Lucas; Author, Speaker, Broadcaster “*Love: Expressed* is a work of dirt-under-your-fingers spirituality.” —Jonathan Martin; Author of *Prototype*

A thought-provoking and penetrating account of the post-Cold war follies and delusions that culminated in the age of Donald Trump from the bestselling author of *The Limits of Power*. When the Cold War ended with the fall of the Berlin Wall, the Washington establishment felt it had prevailed in a world-historical struggle. Our side had won, a verdict that was both decisive and irreversible. For the world's “indispensable nation,” its “sole superpower,” the future looked very bright. History, having brought the United States to the very summit of power and prestige, had validated American-style liberal democratic capitalism as universally applicable. In the decades to come, Americans would put that claim to the test. They would embrace the promise of globalization as a source of unprecedented wealth while embarking on wide-ranging military campaigns to suppress disorder and enforce American values abroad, confident in the ability of U.S. forces to defeat any foe. Meanwhile, they placed all their bets on the White House to deliver on the promise of their Cold War triumph: unequaled prosperity, lasting peace, and absolute freedom. In *The Age of Illusions*, bestselling author Andrew Bacevich takes us from that moment of seemingly ultimate victory to the age of Trump, telling an epic tale of folly and delusion. Writing with his usual eloquence and vast knowledge, he explains how, within a quarter of a century, the United States ended up with gaping inequality, permanent war, moral confusion, and an increasingly angry and alienated population, as well, of course, as the strangest president in American history.

Professor Amartya Sen delivered the 1998 Romanes Lecture before the University of Oxford on 17 November 1998. The subject of his lecture concerns social identity and its role and implications.

A Washington Post Notable Book of the Year As seen on the Netflix series *Explained* From the best-selling author of *Cosmopolitanism* comes this revealing exploration of how the collective identities that shape our polarized world are riddled with contradiction. Who do you think you are? That's a question bound up in another: What do you think you are? Gender. Religion. Race. Nationality. Class. Culture. Such affiliations give contours to our sense of self, and shape our polarized world. Yet the collective identities they spawn are riddled with contradictions, and cratered with falsehoods. Kwame Anthony Appiah's *The Lies That Bind* is an incandescent exploration of the nature and history of the identities that define us. It challenges our assumptions about how identities work. We all know there are conflicts

between identities, but Appiah shows how identities are created by conflict. Religion, he demonstrates, gains power because it isn't primarily about belief. Our everyday notions of race are the detritus of discarded nineteenth-century science. Our cherished concept of the sovereign nation—of self-rule—is incoherent and unstable. Class systems can become entrenched by efforts to reform them. Even the very idea of Western culture is a shimmering mirage. From Anton Wilhelm Amo, the eighteenth-century African child who miraculously became an eminent European philosopher before retiring back to Africa, to Italo Svevo, the literary marvel who changed citizenship without leaving home, to Appiah's own father, Joseph, an anticolonial firebrand who was ready to give his life for a nation that did not yet exist, Appiah interweaves keen-edged argument with vibrant narratives to expose the myths behind our collective identities. These "mistaken identities," Appiah explains, can fuel some of our worst atrocities—from chattel slavery to genocide. And yet, he argues that social identities aren't something we can simply do away with. They can usher in moral progress and bring significance to our lives by connecting the small scale of our daily existence with larger movements, causes, and concerns. Elaborating a bold and clarifying new theory of identity, *The Lies That Bind* is a ringing philosophical statement for the anxious, conflict-ridden twenty-first century. This book will transform the way we think about who—and what—we are.
