This colorful flower arranging book features instructions and designs from one of the world's greatest living masters. Asian flower arranging originated in ancient China where it then spread to Japan, Korea and beyond. As influenced by the philosophy of "harmony between man and nature," Chinese flower arrangement advocates for nature to represent life, emphasizes composition to display vividness, and focuses on connotation to exhibit artistic concepts. Gradually, these become the characteristics of Chinese flower arrangement—the beauty of nature and composition which are entirely different from the beauty of western decorative styles. This book records the origin and development of Chinese flower arrangement. Besides the principle of composition, techniques of modeling, and configuration of flowers and materials, you will also discover the methods of production and ten actual flower arrangement projects. You can either follow the lessons step by step or capture the ideas and be inspired to develop your own flower arrangement artwork.

In this lovely meditation on ikebana - the Japanese art of flower arranging - Joan Stamm shows us how her twin paths of Buddhist practice and artistic endeavor converge and indeed become thoroughly intertwined. Stamm's lush, elegant voice weaves childhood memories of her mother's joy at a just-bloomed morning glory with meditations on the symbolic importance of bamboo, of pine, of the lily. She takes us with her on her travels to Japan as she learns the essential principles of ikebana, and lets us join her as she teaches flower arranging to women in a nursing home who, though they won't recall tomorrow the rules of arrangement or even the flowers' names, nonetheless partake in the joy and love that celebrates all living things, however briefly they endure. And, when Joan shows us the natural symmetry of a blossom, we find that we too have regained our balance. Includes 16 full-color photographs of the author's original ikebana.
