GitHub - PacktPublishing/Mastering-Pandas-Second-Edition...

The pandas we are going to obsess over in this book are not the cute and lazy animals that also do kung fu when needed. pandas is a high-performance open source library for data analysis in Python developed by Wes McKinney in 2008. pandas stands for panel data, a reference to the tabular format in which it processes the data. It is available ...

Mastering pandas - Second Edition - Packt

Hierarchical indexing is a feature of pandas that allows the combined use of two or more indexes per row. Each of the indexes in a hierarchical index is referred to as a level. The specification of multiple levels in an index allows for efficient selection of different subsets of data using different combinations of the values at each level.
