This folder accompanies the Primary
CAME professional development
programme. The two-year programme is
based on extensive research into how to
promote the development of children's
mathematical thinking skills. It explores
not just what to teach Year 5 and 6
children but how and why.

Teachers guides for Books 2a and 2b are
designed to be used with Years 3 and 4

respectively. They each cover number, algebra, statistics and measurement topics. Book 2c covers the geometry topics for level 2.

This friendly self-help workbook covers mathematics essential to first-year undergraduate scientists and engineers. In the second edition of this highly successful textbook the author has completely revised the existing text and added a totally new chapter on vectors. Mathematics underpins all science and engineering degrees, and this may cause problems for students whose understanding of the subject is weak. In this book Jenny Olive uses her extensive experience of teaching and helping students by giving a clear and confident presentation of the core mathematics needed by students starting
