'Minority Education in China' is an important and balanced book of essays about the fate of minority languages in China By Bradley Winterton / Contributing reporter The problem of local languages versus the great imperial language is common to all empires, and by extension to almost all large countries.

Book review: Minority Education In China: Balancing Unity ...

China attaches great importance to the development of education. Its official data shows that the government expenditure on education has increased continuously over the years. In 2019, China spent a total of 5.02 trillion yuan (745 billion U.S. dollars) on education. The figure was over four trillion yuan in government expenditure on education.

From mass education to universal education: China's way ...

Education inequality in China exists on multiple levels, with significant disparities occurring along gender, geographical, and ethnic divides. More specifically, disparities exist in the distribution of educational resources nationwide, as well as the availability of education on levels ranging from basic to higher education.
