But it didn't seem to change him in any way and did not alter the course of the story so what you have is a fairly rudimentary memoir of a guy with behaviour issues and a difficult relationship with his step mum. It's more a story of how the medical profession and the state dealt with that sort of thing back in the 60's. I gave up around page 100. Read more ...

At twelve, Howard Dully was guilty of the same crimes as other boys his age: he was moody and messy, rambunctious with his brothers, contrary just to prove a point, and perpetually at odds with his parents. My thanks to Howard Dully to have the courage to expose the good, the bad and the ugly of his life. It was a well balanced account of a life disrupted in the worst way. For someone to take a little boy and treat him so badly, then to try to destroy him is heartbreaking. I am glad Howard has found love and compassion in his adult life.
