Observing Young Children - SlideShare

When observing and assessing children's development practitioners need to use their skills in order to get the balance right between interacting with children and completing paperwork. When interacting with children, it can give practitioners a further insight into children's development, understanding how they are learning and what further steps need to be put in place to help them learn further.

Observing and assessing children's development

Observing what children can do Observation is referred to in several places in the revised Early Years Foundation Stage. Put simply observation is the practice of looking at and listening to children to find out how they are developing, what they like doing and what they are learning through their play and the experiences on offer.

Observation, Assessment and Planning - Early Years Matters

Cte 8 Observing and assessing children's learning and development ACTIVITY 1 situations, we adjust and refine our behaviour accordingly. For example, in settings, practitioners will notice when children have fallen over, they will notice that children have run out of glue, they will observe and monitor what needs doing as children tidy up.
