John Lennon's Death Was Faked. The shooting of John Lennon in 1980 was staged, or at least he didn't immediately die. Or at least that's the premise that launches a hilarious work of fiction called "Life After Death (For Beginners)" by Michael Gerber, in which — among other things — Lennon tries to discover who killed him and whether it was for money or politics or love.

There are several conspiracy theories about John Lennon's death. First, that Mark Chapman was a CIA agent (the FBI DID have files on John Lennon though). Second, that he wanted to live in peace and away from the public eye so he faked his death. And third, that he actually committed suicide.

**Facts About John Lennon's Murder Not Many People Know —**

Invalid Email. An utterly bonkers conspiracy that Beatles frontman John Lennon faked his death and is still alive today has resurfaced on the 39th anniversary of his assassination. Today marks 39 years since the iconic singer was murdered by Mark David Chapman outside his Manhattan apartment in New York. But despite the overwhelming proof of his death, there are those online who bizarrely believe the official line of reports are wrong.

Based on six years of extensive research into the background and motives of assassin Mark Chapman and the circumstances of the murder, the author contends that Chapman was part of a political plot
Millions of Beatles fans were stunned when the news broke on December 8, 1980 that John Lennon had been slain in front of his apartment in New York City. He was just 40 years old. In The Other Side of John Lennon journalist Brian Harker Johnson initiates contact with the British songwriter through internationally-known medium Denise Lescano. The result is a spirit biography in which Lennon describes what happened on the night he was shot and what his life is like now on the other side.

Profiles John Lennon from his childhood to his death, reveals the offstage Lennon and the violence that shaped his tortured life, discusses Lennon's hidden existence with Yoko, and assesses his impact as a cultural hero

A searing, surreal novel that blends fantasy and reality—and Beatles fandom—from one of literature's most striking contemporary voices, author of the international sensation City of Bohane It is 1978, and John Lennon has escaped New York City to try to find the island off the west coast of Ireland he bought eleven years prior. Leaving behind domesticity, his approaching forties, his inability to create, and his memories of his parents, he sets off to calm his inquiet soul in the comfortable silence of isolation. But when he puts himself in the hands of a shape-shifting driver full of Irish charm and dark whimsy, what ensues can only be termed a magical mystery tour. Beatlebone is a tour de force of language and literary imagination that marries the most improbable elements to the most striking effect. It is a book that only Kevin Barry would attempt, let alone succeed in pulling off—a Hibernian high wire act of courage, nerve, and great beauty.

From the market leader in true facts comes a big book of hilariously false information. The crackpot staff of the Bathroom Readers' Institute is out of control. After 25 years of laboriously researching facts and verifying them and then verifying them again, Uncle John's mischievous minions decided to blow off a little steam. The result: Fake Facts. It's stuff that isn't even remotely true—we just made it sound real. Why? Because it's really funny. Fake Facts is 228 pages of origins, facts, weird products, strange diseases, kooky fads, slang terms, historical oddities, and other fascinating bits of information that are too good to be true... because they aren't true. So put aside your BS detector and settle in to read about: \* The ill-fated "Vice President for a Day" for kids program \* How the overfishing of dolphins led to the canned tuna industry \* "Crumble," "plaidsy," "benji," and other British slang \* Abandoned rules of early baseball, and obscure rules of grammar \* How early vegetarians gave Boston its "Beantown" nickname \* The secret superpowers of twins \* James Joyce's unpublished sci-fi trilogy \* Unicorns, wizards, and pirates galore And lots more falsified fun!

Rob Sheffield, the Rolling Stone columnist and bestselling author of Love Is a Mix Tape offers an entertaining, unconventional look at the most popular band in history, the Beatles, exploring what they mean today and why they still matter so intensely to a generation that has never known a world without them. Dreaming the Beatles is not another biography of the Beatles, or a song-by-song analysis of the best of John and Paul. It isn't another expose about how they broke up. It isn't a history of their gigs or their gear. It is a collection of essays telling the story of what this ubiquitous band means to a generation who grew up with the Beatles music on their parents' stereos and their faces on T-shirts. What do the Beatles mean today? Why are they more famous and beloved now than ever? And why do they still matter so much to us, nearly fifty years after they broke up? As he did in his previous books, Love is a Mix Tape, Talking to Girls About Duran Duran, and Turn Around Bright Eyes, Sheffield focuses on the emotional connections we make to music. This time, he focuses on the biggest pop culture phenomenon of all time—the Beatles. In his singular voice, he explores what the Beatles mean today, to fans who have learned to love them on their own terms and not just for the sake of nostalgia. Dreaming the Beatles tells the story of how four lads from Liverpool became the world's biggest pop group, then broke up—but then somehow just kept getting bigger. At this point, their music doesn't belong to the past—it belongs to right now. This book is a celebration of that music, showing why the Beatles remain the world's favorite thing—and how they invented the future we're all living in today.

Pulling back the many hidden layers of John Lennon's life, Lesley-AnnJones closely tracks the events and personality traits that led to the rock star living in self-imposed exile in New York—where he was shot dead outside his apartment on that fateful autumn day forty years ago. Late on December 8th, 1980, the world abruptly stopped turning for millions, as news broke that the world's most beloved bard had been gunned down in cold blood in New York city. The most iconic Beatle left behind an unrivaled body of music and legions of faithful disciples—yet his profound legacy has brought with it as many questions and contradictions as his music has provided truths and certainties. In this compelling exploration, acclaimed music biographer Lesley-Ann Jones unravels the enigma that was John Lennon to present a complete portrait of the man, his life, his loves, his music, his untimely death and, ultimately, his legacy. Using fresh first-hand research, unseen material and exclusive interviews with the people who knew Lennon best, Jones' search for answers offers a spellbinding, 360-degree view of one of the world's most iconic music legends. The Search for John Lennon delves deep into psyche of the world's most storied musician—the good, the bad and the genius—forty years on from his tragic death.

Twenty years ago David Sheff climbed the back steps of the Dakota into the personal thoughts and dreams of John Lennon and Yoko Ono. From the kitchen to the studio and up those fateful Dakota steps, Sheff recorded 20 hours of tape, discussing everything from childhood to the Beatles. Sheff gives a rare and last glimpse of John and Yoko, one that seemed to look beyond the kitchen table to the future of the world with startling premonitions of what was to come.

(Piano Vocal). This sheet music features an arrangement for piano and vocal with guitar chord frames, with the melody presented in the right hand of the piano part as well as in the vocal line.
