Systematic Theology. by Charles Hodge - Goodreads  
Charles Hodge, Systematic Theology (1871-1873). It's unfortunate that Hodge has been caricatured as an unfeeling "nothing but the facts" theologian, because personally he was warm, and pastoral and theologically he is never dry and dusty (save for the untranslated Latin paragraphs!).

Charles Hodge (1797-1878) was the chief theologian of Old Princeton, and is still revered today as one of greatest American theologies in the Presbyterian tradition. His Systematic Theology remains a standard work in the Reformed tradition.

Charles Hodge (1797-1878) was one of nineteenth-century America's leading theologians, whom some have called the "Pope of Presbyterianism." Paul Gutjahr's book is the first modern critical biography of this towering figure.

"Charles Hodge (1797-1878) is regarded by many as the most significant American theologian of the nineteenth century. He drove forward the rapid growth of theological education and contributed to Presbyterianism's wide-ranging influence in public life. His advocacy of a Reformed orthodoxy combined with evangelical piety attracted a broad following within Old School Presbyterianism that spilled over into American evangelicalism as a whole. Hodge helped to define a distinctive ministerial modelthe pastor-scholar and his fingerprints can be seen all over the Reformed Christian scene of today" -- Publisher description.

The next volume in Hodge's monumental work in theology, this work focuses on the state of humanity and the person of the Saviour Jesus Christ. Outlining the biblical and philosophical arguments for topics such as the state of sin of all humanity and the person and work of Christ, Hodge uses a well inclusive and thoughtful system of arguments for the theological thinking that he has in these topics.
