With Christmas only three days away, Carol Claus agrees to her father's request that she leave the North Pole on a mission to help save Christmas. Joining single father Ben Hanson and his children for the holidays seems an easy enough task until Santa informs her that Ben is the man behind the disturbing new book 'Beyond Bah Humbug: Why Lying to Your Children about Santa Claus is a Bad Idea'. Posing as Miss Kane, the children's new nanny, Carol pulls out all the stops to show Ben how fun Christmas can be, all the while struggling to understand how one man could hate the holidays so much. How could she, Santa's only daughter, be so attracted to a man who refuses to believe her father exists?

The modern Christmas was made by the Victorians and rooted in their belief in commerce, family and religion. Their rituals and traditions persist to the present day but the festival has also been changed by growing affluence, shifting family structures, greater expectations of happiness and material comfort, technological developments and falling religious belief. Christmas became a battleground for arguments over consumerism, holiday entitlements, social obligations, communal behaviour and the influence of church, state and media. Even in private, it encouraged reflection on social change and the march of time. Amongst those unhappy at the state of the world or their own lives, Christmas could induce much cynicism and even loathing but for a quieter majority it was a happy time, a moment of a joy in a sometimes difficult world that made the festival more than just an integral feature of the calendar: Christmas was one of British culture's emotional high points. Moreover, it was also a testimony to the enduring importance of family, shared values and a common culture in the UK. Martin Johnes shows how Christmas and its traditions have been lived, adapted and thought about in Britain since 1914. Christmas and the British is about the festival's social, cultural and economic functions, and its often forgotten status as both the most unusual and important day of the year
