This Collection Marks The Fiftieth Anniversary Of The Founding In 1958 Of The Foreign Correspondents' Association Of South Asia (Fca) - Renamed The Foreign Correspondents' Club (Fcc) In 1991. South Asia Is A Specially Favoured Assignment For Foreign correspondents Because Of The Immensity Of The Story. It Is A Place Where Politics And Major Events Unfold On The Streets, Not Just In Closed Rooms. This Book, With Its Collection Of Reportage, Comment And Photographs, Reflects This Story. It Does Not Seek To Cover Every Event In The Decades Since 1947, But Focuses Instead On Good Writing And Historic Moments That Give A Picture Of How Foreign Correspondents Have Reported South Asia Over The Last Fifty Years. Peter Kann's Pulitzer Prize-Winning Account Of The Fall Of Dacca In 1971 And Barbara Crossette's Eyewitness Report Of Rajiv Gandhi's Assassination Are Two Justly Celebrated Pieces, But All The Contributions Bring To Life Subjects As Diverse As Tiger Hunts, Religious Fanaticism And The Indian

and interactive, involving the case study method of learning. Chapters start with an Indian case study of a well known company. This is used as a capstone case for the chapter. The student will find this an easy learning experience as data and additional information for these enterprises is readily available. The selection of such cases makes classroom learning truly suited to the Indian business environment. The value driven approach to Operations Management is used in structuring the text into three modules. The first module discusses the infrastructure function of Operations Management. Infrastructure function is considered to be product, process, capacity and location. Module Two describes the structure of the operations function. This includes quality and other product transformation processes. Module Three focuses on the organization, people and processes i.e. the job, the work, and the workplace. In addition, most of the mathematical techniques have been separated into supplements attached to the relevant chapters. Software solutions for the techniques have been explained in the text. Every mathematical technique is exemplified with a number of solved problems. Unlike many Production and Operations Management texts, this book covers E-commerce, Industrial Safety, Maintenance, Environmental Management (Green Productivity) and new technological trends in the discipline. These sections should add to the significance of exploring how firms can gain competitive advantage and promote sustainable development at the same time. The last section of the book comprises of a selection of cases from The Indian Institute of Management at Ahmedabad. The cases encompass the entire spectrum of Indian Industry the private and the public sectors, professional and family managed business organizations, service and manufacturing industries, single industry and conglomerates. The cases relate to Operations Strategy,
