Timbers - their properties and uses
This sheet sets out the properties of 140 timber species commonly used in the UK. A brief overview of the properties a specifier should consider is followed by a reference table that can be used to help with species selection or to determine species with comparable properties when alternatives are required. The table includes data for timber type and colour, texture, density, moisture movement, durability (fungi), treatability (heartwood), working qualities, availability.
